Delvcam - Feature Rich at an Affordable Price!

Fly high with the Delvcam DELV-DUALFPV-7 widescreen 7" LCD monitor with built-in 5.8 GHz wireless receiver. It is designed for first person view unmanned aerial videography for use with mobile video capture devices such as quad, hex, and octocopters.

The built-in 32-channel AV receiver with auto-switch antenna provides continuous confidence monitoring up to 2000 meters line of sight. Its unique no-blue-screen function assures your monitor will never go blue if the signal gets weak. Watch your video action in real time without the need for video goggles.

With a high-bright, sunlight readable screen and multiple powering options, it is a great choice for sports production rigs and similar field productions.
