Delvcam - Feature Rich at an Affordable Price!

The DELV-HDMIB is a broadcast quality monitor used in DSLR and full HD camcorder applications for taking photographs and making movies. Features include a built-in 2600mAh battery and battery charge level indicator as well as a 12 volt DC adapter.

The smart sunshade folds away as a screen protector for the LCD, ideal for broadcast environments where monitors are exposed to a great deal of movement. With user definable function buttons, and HDMI and AV inputs as well as high-quality resolution, contrast and brightness, this monitor is strongly recommended for DSLR fans and directors!
